Part I: Exploring the Options

Career landscape

Lots of buzzwords...

Lots of buzzwords...

Example job titles

Corporate Sustainability / Corporate Social Responsibility

Example Roles

- Manager of Sustainability & ESG, **JetBlue Airways**
- Environmental Program Manager, **Apple**
- Sustainable Materials & Innovation Program Manager, **REI**
- Global Impact Partnerships Manager, **Facebook**

Finance & Investing

Example Roles

- VP, Global Sustainable Finance, **Morgan Stanley**
- Investment Officer, **Grantham Environmental Trust**
- Investment Director, Mission Related Investing, **Cambridge Associates**

Consulting

Example Roles

- Lead Associate, Renewables & Environment, **Booz Allen Hamilton**
- Sustainability Consultant, **ERM**
- Consultant, **The Context Network**

Example job titles

Marketing

Example Roles

- Brand Manager - Better For You Portfolio, **Danone**
- VP, Marketing, **Ripple Foods**
- Marketing Director, **charity: water**
- Social Media Marketing Intern, **Inspiring Capital**

Nonprofit Management

Example Roles

- Director of Research - Standards, **Sustainability Accounting Standards Board (SASB)**
- State Director, **The Nature Conservancy**
- Dir. of Governance & Global Partnerships, **C40 Cities Climate Leadership Group**

Entrepreneurship / Venture Capital

Example Roles

- Co-Founder & CEO, **MovingWorlds**
- Co-Founder, **Kunoa Cattle Co.**
- Managing Partner & Co-Founder, **Wireframe Ventures**
- VP, **Agriculture Capital**

Supply Chain

Example Roles

- Director, Secondary Packaging, **AB InBev**
- Sr Sustainability Manager, North America Supply Chain Innovation, **Nike**
- Global Procurement & Sustainability Director, **AB InBev**

Example job titles

Science & Engineering

Example Roles

- Energy & Sustainability Researcher, **ICF**
- GIS and Research Intern, **World Wildlife Fund**
- Product Manager, Vehicle Management, **Rivian**
- Senior Scientist & Data Visualization Specialist, **Indigo Ag**

Energy Management

Example Roles

- Energy & Sustainability Manager, **Cisco**
- Energy Manager, **CBRE**
- Energy Program Manager, **Facebook**

Policy

Example Roles

- Senior Consultant, Policy Advisory & Research, Sustainable Energy Use, **DNV GL**
- Program Director, Southeast Policy, **Energy Foundation**
- Senior Advisor for Environmental Justice, **NYC Mayor's Office of Climate Policy**

(and lots of others, too, of course)

Trends affecting hiring

- The **Inflation Reduction Act** will drive \$370B++ investment in power, buildings, and transportation infrastructure.
- Companies are looking to make good on **corporate climate/net zero commitments**.
- **Racial equity, environmental justice, and diversity & inclusion** are attracting funding as well as corporate attention.
- Growth trajectories are strong for **renewable energy, energy storage, electric vehicles, and charging infrastructure**.
- VCs, private equity, and philanthropists are upping investment in **climate tech**, including **carbon removal** technologies.
- Demand for **ESG investing** products, services, and jobs is expanding (so is backlash rhetoric). Metrics and measurement are high priorities.
- Consumer goods and apparel companies are taking steps towards the **circular economy**.
- The need for **climate adaptation** solutions is becoming more urgent.

Microsoft will be carbon negative by 2030

Jan 16, 2020 | Brad Smith - President

Huge opportunities and huge threats loom for US clean energy in 2023

Wind and solar deployment fell steeply in 2022. Can the Inflation Reduction Act help build it back this year?

EPA announces \$100M in environmental justice grants

The EPA will award grants through its Environmental Justice Collaborative Problem-Solving Cooperative Agreement Program and its Environmental Justice Government-to-Government Program.

7 trends shaping food and beverage in 2023

The year begins with a new focus on giving consumers what they want, from RTD cocktails to tech-enabled products to sustainability to better labeling.

Inside Volkswagen's big bet on electric vehicles

Volkswagen is doubling down on electric vehicles with the opening of a cutting-edge battery testing facility in Tennessee.

Thinking through your options

Sustainable Careers Matrix

ORGANIZATION

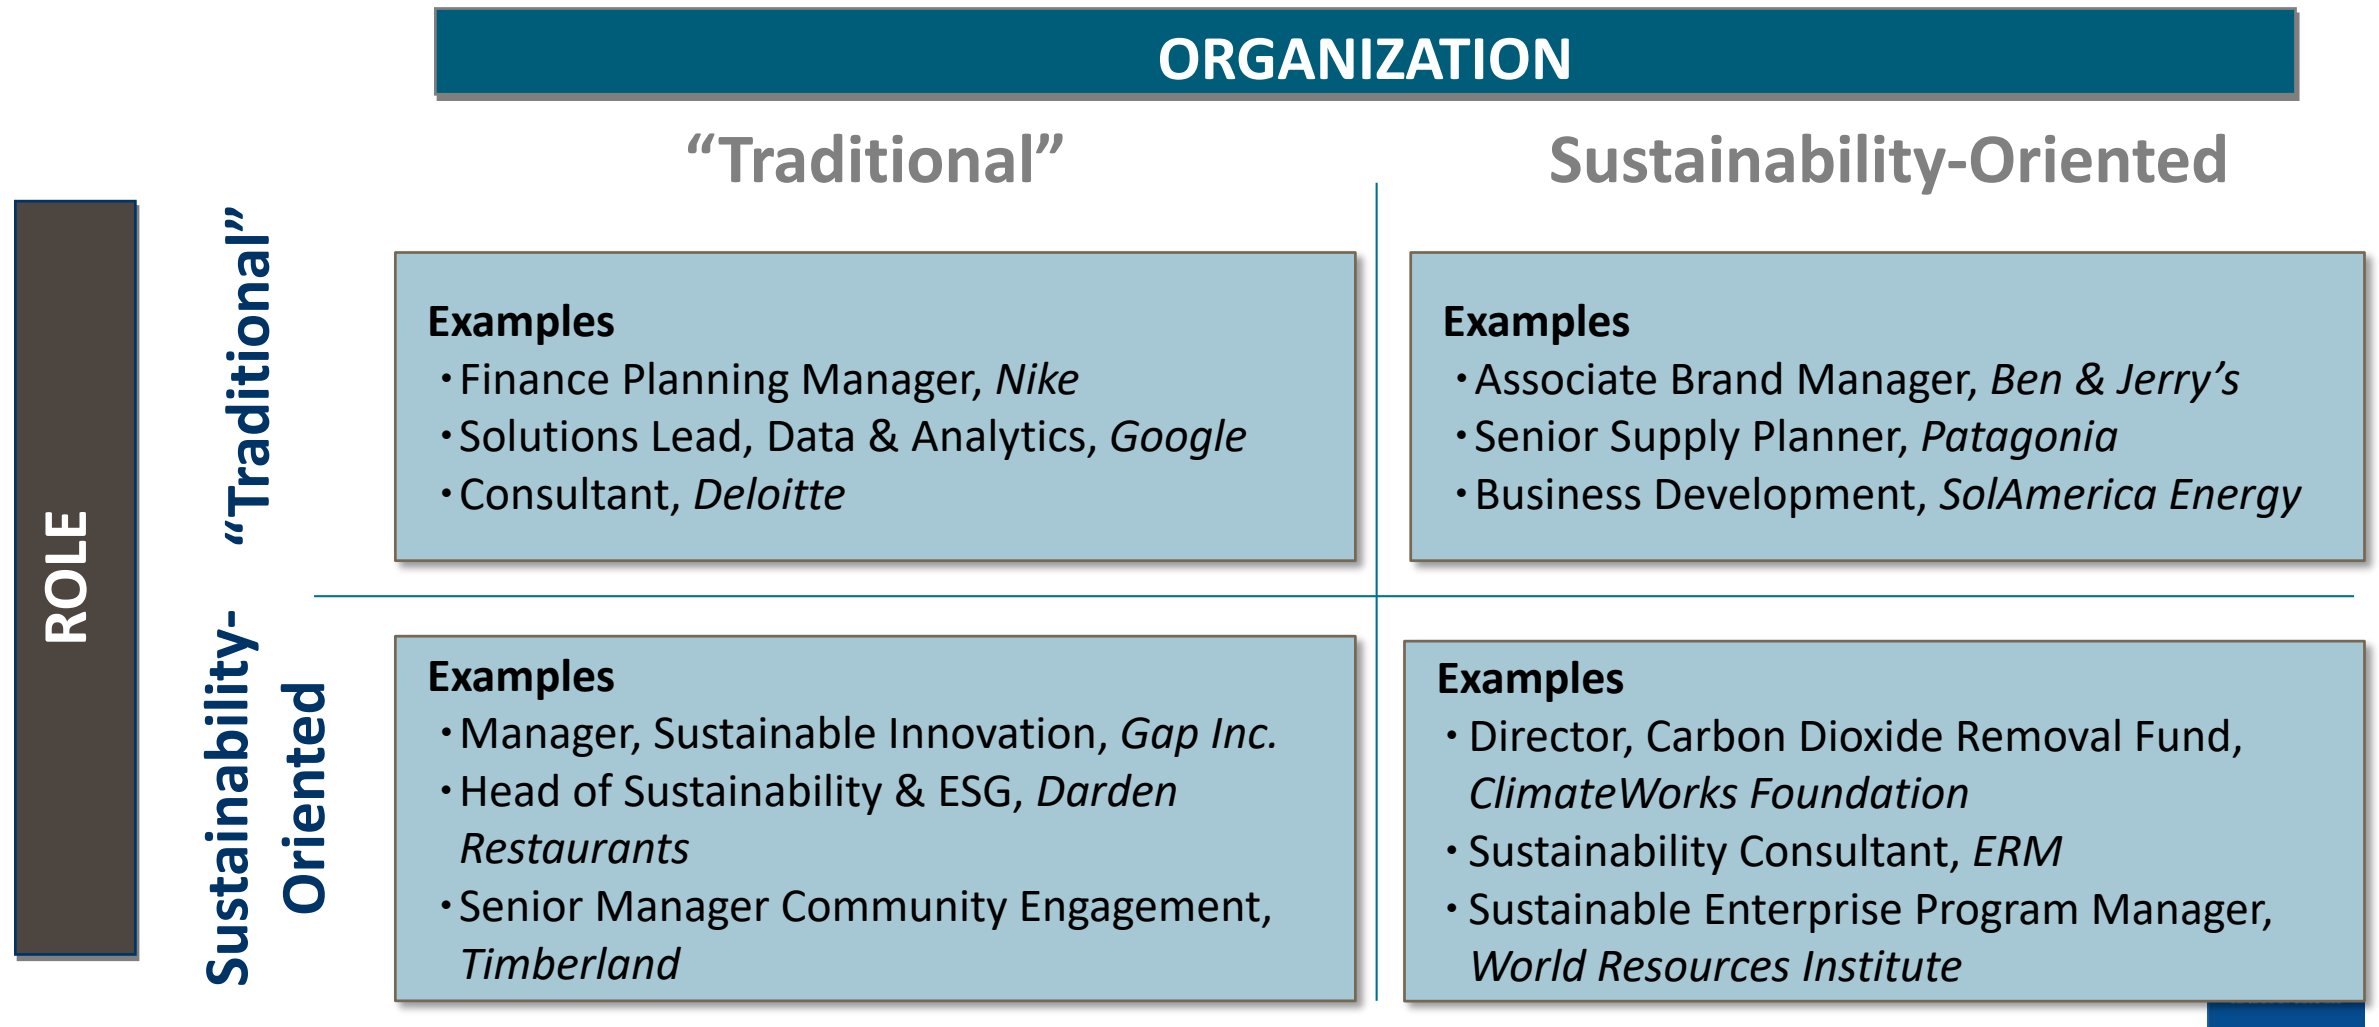

Do you want to work in a “**traditional**” business organization (Fortune 500 corporation, consulting firm, investment bank)? Or, do you want to be working for a company or nonprofit whose core product or service is **sustainability-oriented** (ie, part of the mission)?

ROLE

Do you want your role to be in a “**traditional**” business function like marketing, strategy, finance, accounting, or supply chain management? Or, do you want your job title and function within the organization to be **sustainability-oriented**?

(Next slide: See how these intersect, with examples.)

Sustainable Careers Matrix

5 key questions to ask yourself

1. Impact

- What kind of impact do you want to have? What issue do you want to work on?

2. Sector

- What kind of organization do you want to work for? (nonprofit, government, large company, small company, B corp)

3. Industry

- What industry do you want to focus on?

4. Role

- What kind of work do you want to do in the organization?

5. Geography

- Do you have a geographic focus?

Getting started: Advice for students

Advice for undergraduate students

- Decide what *issue* you are most interested in (climate? energy? human rights? environmental justice?) and start in any role with an organization that is working on this issue
 - You will build skills over time
 - Working close to the issue will help you understand who the players are, where the levers of change are
- Build experience with internships, school projects, volunteer activities
- For entry-level jobs, look for job titles with “Analyst” or “Coordinator” in the title
 - Expect to be in the role only 1-2 years; accept that the work may not sound exciting; learn what you can and move up

Helpful perspectives

- [“Designing a career that matters: Advice to the incoming class”](#) by Dan Vermeer

Traits of sustainability professionals

1. Team Oriented
2. Determined Commitment
3. Peripheral Vision
4. Strategic Thinker
5. Systems Perspective
6. Collaborative Networker
7. Influential Communicator
8. Change Driver

Part II: Navigating the Job Search

Job search strategies & tips

Conducting the search

❖ Network.

❖ *There's no shortcut. More than half of sustainability professionals have their current job as a result of a conversation (not a job posting). Spend most of your job search time building your professional network and reaching out for conversations.*

❖ Fill gaps in your skillset.

❖ *To be a great candidate, do you need industry experience? Subject matter expertise? Skills like financial analysis, marketing, or lifecycle analysis? Look for opportunities to fill gaps with classes, volunteer activities, internships, consulting projects, or extracurricular activities.*

❖ Embrace the diversity of your background.

❖ *Most sustainability professionals have worked in more than one sector (private sector, government, NGO). Many have moved between skillsets (eg, marketing, policy, data analytics, science, communications). Don't worry if you have an unusual background; tell a story that helps connect the dots (while also finding ways to fill gaps).*

Conducting the search

- ❖ Create structure for your search.
 - ❖ *It's easy to spin your wheels. Identify 30 organizations you'd like to work for, and develop a plan for networking with each one. Create realistic and achievable goals for yourself (for example, "Reach out to three contacts this week" or "Complete five informational interviews before the end of the month").*
- ❖ Gather a support team.
 - ❖ *It's hard to stay positive when you feel like you're in this alone. Teaming up with a small group of students or fellow job seekers with similar interests can help. Compare notes, check in, hold each other accountable.*

Conducting great informational interviews

- What's it like to be a professional in this space?
 - What's your day-to-day job is like?
 - What skills are you most using? (quantitative vs. "soft" skills?)
 - What's next for you in your own career?
 - What conferences do you attend? What news sources do you read?
- How can I prepare?
 - If I hoped to work on your team in the future, what skills would I need to have? What would make me stand out as a candidate? What would be the most valuable experience I could gain between now and then?
- What's the most interesting sustainability challenge facing your industry right now?
- If time and money were no object, what project do you wish you could work on right now? *Follow-up possibility: I'm open to taking on some consulting work (or a student project/internship/independent study); is that a project I could help you with?*

Tips:

Read up in advance
Find points of common interest
Ask for advice, not a job
Be sincerely interested
Respect their time
Follow up

Tips for applying

- ❖ Focus on your transferrable skills.
 - ❖ *It's okay if you haven't worked in sustainability previously. What skills from your past experience translate to this role – eg, project management, budgeting, data analysis, marketing strategy, report-writing, policy analysis?*
- ❖ Focus on the employer's need; use their terminology.
 - ❖ *What are the business drivers for this initiative/project/program? How does the employer define impact? Does the role include both social and environmental issues? Demonstrate that you understand what they need.*

Tips for applying (continued)

- ❖ Passion is important... but not a differentiator.

- ❖ *You're passionate about the mission, but so is every other candidate. How have you turned your passion into actions?*

- ❖ “Show, don’t tell.”

- ❖ *Use specific examples to back up your assertions of skills and interests. “I am a good communicator as evidenced by...”*

- ❖ Be ready to “make the business case” for sustainability.

- ❖ *In an interview, you might be asked: “How does sustainability/CSR/climate action/DEI translate into business value for our company? Why should we care?” Be prepared with an answer in the company’s specific industry context. Different companies care about sustainability for different reasons.*

When sustainability is not in your job title

- Think about the points of intersection between your business unit/role and social/environmental impact.
 - Where are the material impacts?
 - What levers of change do you have?
 - What resources do you?
- Join employee engagement efforts in your office (recycling/ volunteering initiatives, “green team,” diversity task force).
- Outside of work, join the board of a nonprofit in your interest area.
- Volunteer, ideally in a skills-based role. Can you help a nonprofit organization with their marketing strategy or financial management?
- Think long-term. What is your sustainable business dream job 5 years from now? What skills & experience do you need to get there?

Conferences

For students specifically:

- ◉ [ClimateCAP: The Global MBA Summit on Climate, Capital & Business](#) (MBA student audience)
- ◉ [Net Impact Conference](#) (primary audience is students; great for learning & exploring career options)

Industry events (ask about volunteer opportunities for reduced rates):

- ◉ [GreenBiz conferences](#) (volunteer opportunities exist as well as **Emerging Leaders** scholarships):
- ◉ [Business for Social Responsibility \(BSR\) Conference](#)
- ◉ [Sustainable Brands Conference](#)
- ◉ [Ceres Global Conference](#)
- ◉ [Cleantech Forum North America](#)
- ◉ [SOCAP \(Social Capital Markets Conference\)](#)
- ◉ [Engage for Good](#)
- ◉ [Sustainable Investment Forum North America](#)

(among others)

Finding sustainable companies

Rankings

- [WSJ Most Sustainably Managed Companies](#)
- [Just Capital Rankings](#)
- [Global 100](#)
- [Newsweek's Most Responsible Companies](#)
- [3BL's 100 Best Corporate Citizens](#)
- [CDP A List Companies](#)
- [Global Cleantech 100](#)
- [Ethisphere's Most Ethical Companies](#)
- [Sustainalytics' ESG Risk Ratings](#)

Investment Indices

- [S&P ESG Index Family](#)
- [FTSE4Good Index Series](#)
- [Calvert Responsible Indices](#)
- Other sustainable investment funds

Directories

- [BSR members](#)
- [Sustainable Brands corporate members](#)
- [Sustainability Consortium members](#)
- [ASBC Business Members](#)
- [WBCSD member companies](#) & regional affiliate organizations
- [B Corp directory](#)
- [Green Business Network members](#)
- [1% for the Planet business members](#)
- [Ceres Company Network](#)
- [Accounting for Sustainability \(A4S\)](#)
- Speakers & sponsors at conferences
- Local/regional green business organizations

Groups to join

- ◉ [The Young Sustainability Network](#)
- ◉ [Diversity in Sustainability](#)
- ◉ [Women of Color Collective in Sustainability \(WOC/CS\)](#)
- ◉ [Women in Cleantech & Sustainability](#)
- ◉ [Women+ in Climate Tech](#)
- ◉ [Black Environmentalist Alliance](#)
- ◉ [GreenTech Noir](#)
- ◉ [Young Professionals in Energy \(& local chapters\)](#)
- ◉ [Work on Climate Slack Group](#)
- ◉ [MCJ Collective Member Group](#)
- ◉ [Net Impact \(& local student or professional chapters\)](#)
- ◉ LinkedIn groups relevant to your issue/industry interests
- ◉ LinkedIn groups for your city/region
- ◉ LinkedIn groups affiliated with your university alma mater

Geographic-centered resources

- If you have a specific geographic focus, look for local chapters of:
 - [Net Impact](#) (professional chapters)
 - [American Sustainable Business Council](#) (state chapters, US)
 - [Green Drinks International](#) (city chapters, global)
 - [US Green Building Council](#) (chapters)
 - [Women in Sustainability](#) (hubs, mostly Europe)
 - [Impact Hubs](#) (global)
 - LinkedIn groups

Job boards
