

Amazing Grace

* Please rise and join in singing this verse together.

Amazing grace, how sweet the sound
that saved a wretch like me;
I once was lost, but now am found;
was blind, but now I see.

'Twas grace that taught my heart to fear,
and grace my fears relieved;
how precious did that grace appear
the hour I first believed.

Through many dangers, toils, and snares,
I have already come;
'tis grace hath brought me safe thus far,
and grace will lead me home.

When we've been there ten thousand years,
bright shining as the sun,
we've no less days to sing God's praise
than when we first begun.

Amazing Greg, how sweet you are
So thoughtful and kind to all,
You've changed our world, one step at a time
Some big and others small.

* Amazing grace, how sweet the sound
that saved a wretch like me;
I once was lost, but now am found;
was blind, but now I see.

Hallelujah

I've heard there was a secret chord
That David played, and it pleased the Lord
But you don't really care for music, do you?

It goes like this
The fourth, the fifth
The minor fall, the major lift
The baffled king composing Hallelujah

Hallelujah, Hallelujah
Hallelujah, Hallelujah

Baby I have been here before
I know this room, I've walked this floor
I used to live alone before I knew you.
I've seen your flag on the marble arch
Love is not a victory march
It's a cold and it's a broken Hallelujah

Hallelujah, Hallelujah
Hallelujah, Hallelujah
Hallelujah, Hallelujah
Hallelujah, Hallelujah
Hallelujah, Hallelujah
Hallelujah, Hallelujah
Hallelujah, Hallelujah
Hallelujah

Memorable Quotes by Greg Dees

“Where others see problems, entrepreneurs see opportunity. Social entrepreneurs are not simply driven by the perception of a social need or by their compassion, rather they have a vision of how to achieve improvement and they are determined to make their vision work. They are persistent.”

“Rather than giving up when an obstacle is encountered, entrepreneurs ask, “How can we surmount this obstacle? How can we make this work?”

“We can think of social entrepreneurs as reforming or revolutionizing the patterns of production in education, health care, environmental protection, crime reduction, care for the aging, job training for youth, and so on. They find new and better ways to solve social problems or tensions—new ways to make economic growth inclusive and society more just and harmonious.”
